INDIA CHURNS OUT NEARLY 1 MN CVs A YEAR

Centre explores crash test norms for trucks

SWARAJ BAGGONKAR
Mumbai, August 12

THE CENTRAL GOVERNMENT is contemplating the introduction of crash test regulations for commercial vehicles (CVs), too, as India gears up to adopt its first-ever vehicle crash test star rating system for passenger vehicles (PVs) later in the year.

Currently, India does not have a crash test norm for trucks and buses despite the market churning out nearly

one million CVs a year. India's CV market is the third largest in the world, suggest estimates, and is set to grow at a compound annual growth rate (CAGR) of 9% till 2028. "The Indian CV market still does not mandate the crash safety norms for cabs, whereas in Europe these are already in place," Satyakam Arya, managing director and

chief executive, Daimler India Commercial Vehicles (DICV) told FE. DICV, which sells medium and heavy trucks and buses under the Bharat Benz brand, has been offering trucks in India that adhere to the European crash norms. "We are the only company to offer trucks adhering to the European crash safety norms to the Indian consumer. The downtime is much lower because the truck cabs are designed according to those standards," Arya added.

Fiscal health: Maha tops list, C'garh 2nd

PRESS TRUST OF INDIA
Mumbai, August 13

CHHATTISGARH, ONE OF the poorest states in the country, came second, behind Maharashtra but ahead of Telangana, in the overall list of fiscal health scorecard, according to a report. The bottom three in the list were West Bengal, Punjab and Kerala. The report, which is based on the FY24 first budget estimates, shows the fiscal health of 17 key states. It is penned by Kaushik Das, the chief economist at Deutsche Bank India.

Based on the FY23 revised budget estimates, Maharashtra tops the ranking, followed by Chhattisgarh, Orissa, Telangana

and Jharkhand. In contrast, Bengal fares the worst, followed by Punjab, Bihar, Rajasthan and UP, while Andhra ranking has dropped to 11th in FY23 from eighth in FY22, and Gujarat has slipped to the seventh rank from fifth. However, based on the revised FY22 actual budget data, Chhattisgarh tops the list followed by Maharashtra, Orissa, Jharkhand and Gujarat, and in contrast, Punjab fares the worst, followed by Bengal, Kerala, Rajasthan and Bihar, the report said. The report is based on four key fiscal parameters—fiscal deficit; own tax revenue, state debt levels, all as a percentage of their individual gross state domestic product.

'Demand for ACC batteries to rise to 220 GWh by 2030'

MANISH GUPTA
New Delhi, August 13

THE DEMAND FOR advanced chemistry cell (ACC) battery is likely to grow at a compound annual growth rate (CAGR) of 50% with the help of a thriving local battery manufacturing industry and a robust local supply chain, according to a report by the Confederation of Indian Industry (CII) released on Sunday.

"As a result, India is expected to localise the significant portion of the entire value chain from material processing to pack assembly and integration," the report added.

In 2022, the demand stood at 20 gigawatt hour (GWh), and may hit 220 GWh by 2030, it said. The report, done in collaboration with 6Wresearch, is the third one in a series of reports on 'Roadmap for Future Mobility 2030'.

It also sheds light on the issue of battery costs, which is one of the major concerns affecting the electric vehicle (EV) industry. A battery, in an EV, accounts for about 45% of the overall costs. "EV is determined primarily by the battery running the powertrain of the vehicle. Advancements in the battery technology space is pivotal for development of better performing EVs," said Vipin Sondhi, chairman, CII National Committee on Future Mobility and former Ashok Leyland CEO.

He added, "It is imperative for India to not only strengthen the national battery raw materials and manufacturing set-up, but also to become the global trusted supplier of high-quality, innovative battery materials to counter the Chinese supremacy in the domain."

The report recommends incentivising development of domestic mines as several raw minerals such as cobalt, nickel, lithium, and copper have a negligible reserve, production and refining capacity in India.

It also called for lowering custom duty on critical minerals used in battery manufacturing and incentivising establishment of mineral processing plants to extract required minerals. "India needs a battery chemical processing industry at par with several other stages of battery manufacturing and various measures in form of incentives and exemptions from various taxes," the report said. This may be done by way of incentives from the government, additional funding for R&D, collaboration with countries having advanced technology, and simplification of the regulations related to licenses, approvals and clearances, it said.

FPIs invest ₹3,200 cr in equities so far in Aug on China concerns

PRESS TRUST OF INDIA
New Delhi, August 13

FOREIGN INVESTORS (FPIs) have infused over ₹3,200 crore in Indian equities so far this month driven by uncertainty in the global markets, economic concerns in China, and stability of the domestic economy.

"Since the markets have rallied smartly during the last three months, some profit booking by FPIs would be rational and can be expected," said VK Vijayakumar, chief investment strategist at Geojit Financial Services.

With the global economic mood getting challenging due to slackening Chinese demand, any weakness in global equities could trigger wild gyrations in local shares and result in FPI flow turning choppy going ahead, Srikant Chouhan, head of equity research (retail) at Kotak Securities, said.

According to the data with the depositories, FPIs have put in a net sum of ₹3,272 crore in Indian equities between August 1-11.

Before August, Indian equities witnessed an unabated net inflow in the past five months from March to July on the resilience of the Indian economy amid an uncertain global macro backdrop.
